

I BOA

- I BOA is a Soft Seating system that, through the combination of straight and curved pieces, allows creating a wide variety of configurations for different spaces. It offers a comfortable and dynamic way to define the environment, according to the needs. Its design has been developed under an open configuration concept, which allows I BOA to have unlimited customization capacity. Provides comfort and many options to use it.
- The basis of any I BOA combination lies in its strategic choice of two rectilinear modules, which allow all kinds of configurations. They provide the comfort and security necessary to create pleasant environments, adjusting to the different activities and spaces.
- Currently we only have the I BOA Two Seater and the I BOA One Seater on stock. Other pieces are available by special order.
