

**CV Aura: High-Back Ergonomic Chair**

Made by Cavaletti

Experience unparalleled comfort and support with our ergonomic high-back AURA office chair, designed by Cavaletti to enhance productivity and well-being throughout your workday. The AURA seamlessly blends modern aesthetics with advanced functionality, making it an ideal addition to any workspace, whether in a bustling office, a collaborative conference room, or the tranquility of your home office.

AURA contemporary design prioritizes your posture and provides exceptional lumbar support, reducing strain and promoting a healthier, more comfortable seating experience. The special AURA chair features a synchronized tilt mechanism with a locking system, allowing for customized adjustments to suit your individual needs. The intuitive tension adjustment adapts automatically to your weight, ensuring optimal support without manual intervention. Integrated control mechanisms provide seamless access to these adjustments, maintaining a clean and sophisticated design.

The breathable mesh back promotes airflow, keeping you cool and comfortable even during extended periods of use. Built on a robust five-point base with dual-wheel casters, offers exceptional stability and effortless mobility.

Its versatile design complements a wide range of environments and project types, providing a stylish and functional seating solution for professionals and home workers alike. Invest in in comfort and productivity with the AURA chair that combines ergonomic excellence with contemporary design. Cavaletti chairs have certifications and testing that match or exceed ANSI and BIFMA standards.
