

PM028: Modern Black or White Adjustable Spoon Bar Stool

PM028: Modern Black Adjustable Bar Stool

Elevate your space with this sleek contemporary black or white bar stool. Designed with a smooth, glossy molded seat. It offers both comfort and modern style. The stool features a sturdy control support with a polished metal accent and a stable, four-legged base for reliable balance. Its gently curved backrest provides ergonomic support, making it ideal for kitchen islands, home bars, cafes, or modern workspaces. This stool's minimalist silhouette and durable construction make it a versatile addition to any modern decor.

An original stool with a shape as elastic in appearance as it is in function. The innovation of Spoon consists mainly in attaching the seat to a central support with a specially reinforced curve to guarantee flexibility and comfort. Furthermore, thanks to a sophisticated design solution, the gas lift pump adjusts the height to between 56 and 76 cm and is perfectly inserted into the stem. In the same ingenious fashion, the handle which regulates the mechanism is perfectly concealed inside the seat.

Product Features:

- Style: Modern swivel office chair with a minimalist yet sculptural form
- Material: Durable batch-dyed Polypropylene body with optional cushioned seat
- Typically available in black, white, and other color combinations (e.g. with black cushion)
- Adjustment: Smooth height-adjustable seat with a hidden mechanism integrated into the chair's stem for a clean aesthetic
- Movement: Swivels on a stable base
