

## PM14622: Commercial Umbrella w/Plastic Base

Our PM14622 commercial umbrella with base, a perfect addition to enhance your outdoor experience with style and convenience.

Providing the perfect shade coverage for up to 54 inch tables, the PM14226 commercial style umbrella is a wonderful choice for outdoors. This 9' octagon shaped, auto tilt umbrella offers high 98% UV protection.

Durable too, our fabric is known for its ability to resist fading, mold and mildew. With a rotation of the crank handle, the dynamic tilt mechanism ensures the 100% lift cord will power the umbrella into a full tilt position.

The sturdy metal pole is rendered in a powder coated finish suitable for outdoors use. To clean the fabric remove dirt and spray on cleaning solution (water and mild soap), then use a soft bristle brush or sponge.

Allow cleaning solution to soak into fabric and rinse thoroughly until soap residue is removed. Air dry. Do not dry clean.

Dimensions:  
108"W x 108"D x 102.5"H
